JOHN M. FOLKS

Superintendent

LLOYD GRAHAM

Deputy Superintendent

September 4, 1984

Mr. Michael King  
Principal  
Hubbard Elementary School  
Noble, Oklahoma 73068

Dear Mr. King:

Our recent meeting and discussion of Hubbard Elementary School's new approach for teaching and learning was both pleasant and informative.

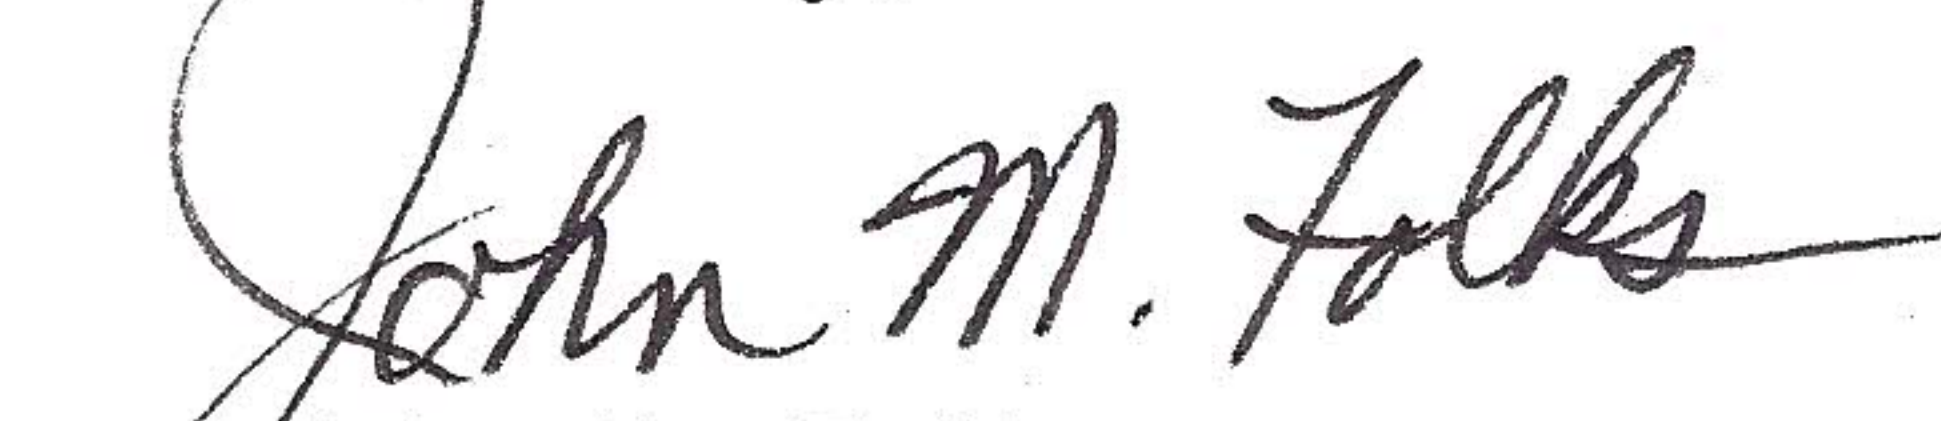

This discussion, as well as the publication you compiled entitled "Manual of Prescribed Instructional Expectations," instilled a very favorable impression of the Curriculum Analysis Monitoring Systems (CAMS) program.

I have reviewed your publication and one of the areas I found most interesting was the expected student outcomes and the manner in which you have integrated those skills. Information as depicted on the Curriculum Analysis Monitoring Systems charts will be of special benefit to educators.

I will forward this copy of your publication to the administrator of our Curriculum Section, Ms. Mary Reid. I know she will be delighted to learn of this exciting approach to teaching.

Since my background is in mathematics, this approach is of particular interest to me. I look forward to following the progress of this project.

Sincerely,

  
John M. Folks  
State Superintendent
